Do you agree or disagree with the following statement?

Childhood is the happiest time of a person's life.

Use specific reasons and examples to support your opinion.

You should write about 100 - 150 words.

Childhood is the happiest time of a person's life. So hard to decide: it's truly phrase or not! You can imagine that I'm an typical adult or I'm a noisy usual child. Let's start!

If I was an adult, I'll agree with this statement. Why? Of course because the main reason: children don't need to work! Sometimes they ~~are~~ don't understand how hard adults get money. Also, children don't have to make different decisions, because adults always ~~care~~ about children. So many children can be careless. Lucky them!

So, if I was a child (yes, I'm absolutely child now!!) I'll agree with adults ~~in~~ despite of the fact that many children won't agree with me. ~~all~~ Little children want to be older and they don't like their childhood, because they must go to school and etc. What a pity! And they don't like that 'angry' adults control them every moment.

In my opinion this statement is true. We should live every moment and enjoy every period of our life!
