WRITING  
Time: 30 min

This is a part of a letter you have received from your British friend, Alice:  
*At the weekend we went on a bus trip to London – it was wonderful! Tell me about a Russian city you have been to. What kind of town would you not like to go to and why?*

Write a letter answering your friend's questions.

Do not forget to:

- greet your friend
- ask her questions about her trip
- tell him about a city or town you've been to
- tell him about a town you wouldn't like to go to
- say why you wouldn't like to go there
- remember the rules of letter writing

You should write about 100 - 120 words.

Khabarovsk  
Russia  
22/09/17.

Dear Alice,

I was glad to hear from you. Thank you for your letter.

Well, I have already been to Vladivostok, Moscow, Gatchina, Novgorod, Rostov-on-Don, Yaroslavl and so on. My favourite Russian city is Saint Petersburg. It is <sup>very</sup> big city with interesting history and <sup>romantic</sup> atmosphere. There are three rivers in St. Petersburg: <sup>the</sup> Moyka, <sup>the</sup> Fontanka and <sup>the</sup> Neva. I was really excited by the architecture of this beautiful city.

I wouldn't like to go to Moscow because it is a loud, dirty city with great history. Also there are too many people <sup>at</sup> the streets and you wouldn't have an ability to take photos nearly sights. So I don't ~~like~~ want to come back there.

What sights did you visit ~~at~~ in London? Where did you live in London? Can you give me useful information about this city?

Hope to see from you soon,  
Best wishes,  
Kate.

Let's talk about quotation: "Education is a progressive discovery of our own ignorance." Many people say that we may not educate enough, but we do have enough knowledge. Education is not how many degrees you have, it's about how well we can use our knowledge.

Well, I think that this statement is absolutely true, because education is a life-long process. We learn gradually. Education can be defined as a skill that makes man come out of ignorance into the path of wisdom. Also, I want to say that an educated person doesn't mean one who has a degree from university, but an educated person is one who knows and understands the process and ways of human activities. We need to learn and discover this way of life. How can we do it? I think we can learn from our mistakes.

In conclusion, I would like to say that we mustn't be afraid to make mistakes. Only that way we can discover our ignorance.
